Are manufactured homes built to the same codes as site-built homes?

General · https://mysunrisecommunity.com/faq/are-manufactured-homes-built-to-the-same-codes-as-site-built-homes/

Manufactured Homes are built to a set of standards as tough as those facing the site-built home builder. The Federal Manufactured Homes Construction and Safety Standards and The Department of Housing and Urban Development enforces these standards through the Nation Conference of States on Building Codes and Standards. The code covers design, construction, durability, strength, fire resistance, energy efficiency and more!
